An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 1-8 and 13-14, drawn to non-elected inventions, have been cancelled.

In claim 9, line 6, after "station", - - wherein the chromium adsorption is composed of ferrous-form zeolite - - has been inserted.

Claim 10 has been cancelled.

In claims 11 and 12, line 1, "10" has been changed to - - 9 - - .

Authorization for this examiner's amendment was given in a telephone interview with Paul J. Prendergast on September 15, 2005.

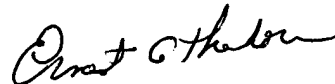

The following is an examiner's statement of reasons for allowance: Litz (U.S. Patent Application Publication 2003/0132155) and Greenleigh (U.S. Patent No. 5,695,642) are considered to be the closest art because they disclose similar apparatus. The case has been allowed because the recited combination of elements would not have been obvious from Litz (U.S. Patent Application Publication 2003/0132155) and Greenleigh (U.S. Patent No. 5,695,642).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
